| Variable | Values | Type |
|---|---|---|
| trial_id | EudraCT Number | string |
| number_of_countries | Number of country protocols present in EUCTR | integer |
| min_end_date | Earliest completion date given | date |
| max_end_date | Latest completion date given | date |
| comp_date | Number of country protocols that include a completion date | integer |
| has_results | 0=no 1=yes | binary |
| includes_pip (any trial is marked as a PIP) | 0=none 1=any | binary |
| rare_disease | 0=no, 1=yes, 2=discordant, 3="data_not_available" | categorical |
| phase | discordant=0, 1=1, 2=2, 3=3, 4=4 | categorical |
| bioequivalence_study | 0=no, 1=yes, 2=discordant | categorical |
| healthy_volunteers | 0=no, 1=yes, 2=discordant | categorical |
| trial_status | 0=all_ongoing, 1=all_complete (or terminated), 2=any_complete (or terminated), 3=other(suspended), 4=blank | categorical |
| terminated (in any field) | 0=no 1=yes | binary |
| sponsor_status (for all listed sponsors) | 0=non-commercial, 1=commercial, 2=mixed/unclear 3=blank | categorical |
| name_of_sponsor | Name of sponsor provided in EUCTR called by the "max" function in postgreSQL | string |
| normalized_name_only | Sponsor names normalized by name appearing in EUCTR only | string |
| normalized_name | Sponsor names normalized by mergers and acquisitions | string |
